READ THE PRICE LIST

This price list is an easy reference and information tool that offers to the client an immediate knowledge of the essential details regarding all SLIDE products. Additional information is found on the product technical sheet available on the website www.slidedesign.it. The price list is divided in product categories with items categorised in alphabetical order and structured in organised horizontal tables, where with a reading from left to right in succession the following product information will be found:

PRODUCT INFORMATION

Product name

Name of the product or accessory / component.

Designer

Signature/ and author/ of the projects.

Description

Short description of the product.

Code

Alphanumeric code which classifies and identifies singularly each product.

Category

Typology of product available: standard (non-luminous products), luminous or lacquered (with painted glossy or matte finishing).
Accessories / components of the products can be specified.

Dimensions

Maximum measurements of the product size.

Materials

Composition materials of the product and of the accessories / components.

Weight

Net weight of each single piece.

Colours

List of colours in which the product is available.

NOTE: for the production of an item in a colour not indicated in this price list, it is necessary to ask to our Sales Dept. for price and minimum quantity.

PACKAGING INFORMATION

The information reported always refer to the packaging units and specify: the number of cartons, the maximum size for each carton, the total volume (m³) and the total weight (Kg).

PRICE

Prices are per unit.

For each product the selling price is EX-WORKS - Buccinasco, Milan (VAT and transport excluded).

TECHNICAL INFORMATION

icon	description	note
	product for indoor use only	The product is for indoor use only. For luminous products: IP20 protection degree with transparent coloured power cable (unless otherwise specified).
	product for indoor and outdoor use	The product can be used in indoor and outdoor spaces. For luminous products: IP55 protection degree with black coloured power cable (unless otherwise specified).
	product version for outdoor on request	On request, the product can be made (with extra charge) in the outdoor version with IP55 protection degree of the electrical components.
	product for indoor and covered outdoor use	The product can be used in indoor and outdoor spaces sheltered from rain and wind. For luminous products: IP40 protection degree with black coloured power cable (unless otherwise specified).
	fireproof product	Fireproof product with class 1.IM that indicates the reaction to fire according to the rules in use (UNI 9175:2010). On request, the polyethylene products (except those in the luminous version) can become fireproof by adding a flame retardant (with extra charge).
	product with soft seat	Product or cushion accessory in soft polyurethane. Product with soft polyurethane cushion seat or with padded cushion in eco-leather or fabric.
	stackable product	
	product with special packaging	Products supplied with special personalised carton box.
	bulb lighting system	Lighting system compatible with LED light bulbs. Bulb not included in the product price (unless otherwise specified). Details of the bulbs available at page 149.
	BULB: 1 x 15W - G95 / E27	Indicates the characteristics of the lighting source recommended or included (where indicated). TYPE OF SOURCE: NUMBER OF SOURCES x WATTAGE SUGGESTED - BULB MODEL (MAX RECOMMENDED SIZE) / CONNECTOR TYPE
	LED lighting system	LED lighting system included in the product price (unless otherwise specified). LED lighting system integrated and not replaceable by customer.
	dimnable product	Indicates that the light intensity of the LED lighting system can be adjusted.
	RGB LED multicolour system	
	3W BATTERY RGBW LED SYSTEM INCLUDED	Indicates that the product is sold with a 3W RGBW LED lighting system (125 lumen) with rechargeable battery, standard EU plug power supply and remote control included (see details at page 154).
	LED tube lighting system	LED tube (with single-ended input) not included in the product price (unless otherwise specified).
	product compatible with Candy Light module	Indicates that the electrical wiring of the product is compatible with Candy Light RGBW LED module (see details at page 152/153).
	product compatible with Candy Light XL module	Indicates that the electrical wiring of the product is compatible with XL version of the Candy Light RGBW LED module (see details at page 152/153).
	product with base model I1	Indicates that the electrical wiring of the product is the base model I1 (see details at page 138).
	product with base model E1	Indicates that the electrical wiring of the product is the base model E1 (see details at page 138).
	product with base model I3	Indicates that the electrical wiring of the product is the base model I3 (see details at page 138).
	product with base model E3	Indicates that the electrical wiring of the product is the base model E3 (see details at page 138).
	photometric data of the product	On request, the photometric data of the product are available in EULUMDAT standard or a similar one. They can be used in the lighting project for illumination development planning.

Lettering

LETTERING COLLECTION

"Love is the most beautiful word in the world. Love is a wonderful and mysterious feeling. Love is the essence of life. If you keep in mind the word Love every day, it gives you happiness."

Giò Colonna Romano

A small messenger for a powerful feeling: Love Message is a decorative Plexiglas script, small in size but able to spread its universal message everywhere. Thanks to its reusable packaging, its card becomes a bookmark, to be always with you!

3W RGBW LED
RGBW LED KIT
WITH RECHARGEABLE BATTERY -
USB PLUG

3 W - 150 lm

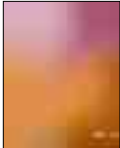

RGBW LED KIT RECOMMENDED FOR NON-PROFESSIONAL USE

TECHNOLOGY - IR technology.
CONTROL - With IR remote control (included).
COLOURS - 16 fixed colours + 4 effects, adjustable luminous intensity.
ACCESSORIES - Standard USB plug power supply & IR remote control (included).
BATTERY RUNTIME - Up to 8 hours.
CHARGING TIME - 10 hours.
ENVIRONMENT - IP55 - Indoor & outdoor use.
COMPATIBILITY - Included in the product where indicated.

3W LED 3W RGBW LED kit cannot be sold separately.
The kit is included in the product only where there are the related symbol in the technical information and the univocal reference code.

Maintenance & Cleaning

MAINTENANCE & CLEANING

The products must be placed on a level surface. Do not step onto the product and try to use it as steps.
To prevent dust and dirt from sticking to the plastic surfaces, periodically clean the products.
Avoid using ethanol or any liquids containing acetone, trichloroethylene or ammonia (solvents in general).
Contact with sources of heat, heaters, fireplaces, radiators, chemicals and non-recommended cleaning products may damage the article.
Continuous and prolonged exposure to sunlight may cause changes to the original finish.
For metal parts use specific detergents, avoiding the use of abrasive cleaners.

POLYETHYLENE

Avoid the build-up of dirt and dust on the surfaces. Periodically clean with a water-damped sponge and neutral liquid soap diluted in water, and rinse with clean water.
Dry with a cloth. In case of persistent stains, use a hot water pressure washer. Avoid using cleaners or detergents containing solvents and/or ethyl alcohol.
It is recommended the use of SLIDE "Clean Up" cleaner or a degreaser. Spray the cleaning product on the surface and rub with a damp cloth. Rinse abundantly with water, preferably with hot water high-pressure washer.
It is recommended the use of SLIDE "Bright Up" detergent for the products maintenance. This polishing protective detergent can remove the most superficial scratches.
Lacquered versions are suitable for external use but more susceptible to scratches. Therefore we recommend cleaning gently with polish cleaner. To clean the product and remove the dust, use a damp microfiber cloth. Then dry with a soft dry cloth.
Continuous and prolonged exposure to sunlight may cause changes to the original finish.

LUMINOUS PRODUCTS

When replacing the bulb, make sure that the power cable is unplugged.
Connect the plug of the product to a power outlet located in a place protected from rain and water. For those versions without the switch on the power cable, connect the product plug under a switch-controlled socket. If the electrical cable of a product is damaged, it must be replaced exclusively by the manufacturer, its assistance service, or equivalent qualified personnel, in order to avoid dangers.
The luminous fluxes (Lumen) and the specified power (Watt), underlined in a luminous product, are the nominal values corresponding to the integrated or suggested source of light. If available, the real data are visible in the photometric curves in a EULUMDAT format, downloadable from the website or in the product data sheet.

POLYURETHANE

Clean the products with a soft cloth and neutral liquid soap diluted in water, especially if the surface comes into contact with highly coloured substances (such as coffee, tea, oil, etc.). Only use neutral detergents in water solution.

POLYPROPYLENE

Clean the products with a damp cloth and neutral detergents in water solution or degreaser. Rinse abundantly with water.

FIBERGLASS

Clean the products with a damp cloth and neutral detergents in water solution or degreaser. Rinse abundantly with water.

HPL (high-pressure laminate)

The surfaces in HPL must be used with the same care dedicated to other common surfaces of internal and external furniture. It is good practice to keep the surfaces always clean and to periodically remove dirt/dust that build up on them. For the cleaning, use a soft and wet cloth with a non-abrasive detergent diluted in water and suggested for the cleaning of common domestic surfaces. Never use abrasive substances and/or sponges that scratch. Rinse with a damp cloth and then dry.

TEXTILE CUSHION / ECO-LEATHER CUSHION

Cushions made of fabric 100% acrylic and eco-leather require care and attention. Clean the surface periodically with a non-abrasive cloth using neutral liquid soap diluted in water; rinse and allow to fully dry. Do not use solvents, chemical detergents or steam cleaners. Do not bleach. Do not use washing machine. Do not iron.
Check for, and remove as soon as possible, soiling such as: leaves, flowers, insects. Vegetable soiling, flower pollen and remains of insects combined with moisture and water can bring stains that penetrate the eco-leather and fabric and can be difficult to remove.
For cushions with removable covers, the fabric can be washed in the washing machine at 30°. The washing of the padding is not suggested.
The cushions with non-removable covers can be only hand washed at 30°.

Consult the technical sheets on www.slidedesign.it for informations about the material properties, recommendations for use, maintenance and cleaning suggestions.

SLIDE srl cannot accept liability for any damage caused to things or persons by an incorrect use of the product.

Materials

MATERIALS

The SLIDE production is entirely MADE IN ITALY and is produced at the plant in Buccinasco (Milan) - Italy.
All SLIDE products are 100% recyclable, realised by the means of a zero emission production cycle in compliance with the environmental sustainability principles.
Below the characteristics of the main materials used for the manufacture of SLIDE products.

POLYETHYLENE

Material: Linear low-density polyethylene – LLDPE
Production process: rotational moulding
Resistant to extreme temperatures: -60°C to +80°C
(Luminous version: if equipped with fluorescent bulb -20°C to +60°C / with LED system 0°C to +50°C)
UV resistant (except lighting colours)
High tensile strength
100% recyclable

POLYURETHANE

Material: Polyurethane – PU
Production process: injection moulding
Very good thermal resistance
100% recyclable

FIBERGLASS

Material: Fiberglass
Production process: hand lay-up
High resistance to chemical agents
Lightness (the specific weight is about 1,8 g/cm³)

HPL

Material: High-pressure laminate
UV resistant (EN ISO 4892-3) and weather conditions resistant (EN ISO 4892-2)
Resistant to extreme temperatures: -80°C to +80°C
High tensile strength

TEXTILE - WATERPROOF ACRYLIC

Material: 100% Solution Dyed Acrylic
Weight: 400-440 gr/m²
Light fastness Level 7/8 (EN ISO 105-B02) and resistant to weather agents
Washable and water repellent with stain resistant treatment fabric

DECLARATION OF CONFORMITY

The company SLIDE srl - Via Lazio, 14 - 20090 Buccinasco (MI) - Italy
declares under its own responsibility that:
The indoor lamps with I1 and I3 wiring base versions (IP20 protection degree) comply with the following standards:
EN 60598-1 (2006)
EN 60598-2-4 (1998)
EN 55015 (2014)
The outdoor lamps with E1 and E3 wiring base versions (IP55 protection degree) comply with the following standards:
EN 60598-1 (2006)
EN 60598-2-7 (1998)
EN 55015 (2014)

For this reason, this declaration satisfies the essential requirements of the following directives:
2014/35/EU - Low Voltage Directive
2014/30/EU - Electromagnetic Compatibility

General sales conditions

GENERAL SALES CONDITIONS

These general sales regulations, unless waived by special conditions contained in the order form or in the order confirmation, regulate sales of products.

PRICES

All prices are expressed in EURO (VAT and transport excluded).

Unless otherwise agreed by the Parties, the prices will be those of SLIDE price list in force at the time of the shipment of the goods.

Possible discounts could be applied on the prices VAT excluded, and the VAT will be charged on the net amount.

SLIDE reserves to change without any prior notice, simply with a written communication, the prices at any time, except for goods already on order.

PRODUCT TRANSPORT AND PACKAGING

Unless otherwise agreed in writing between the Parties, the goods will travel with courier chosen by SLIDE. Goods are sold on EX-WORKS basis, at SLIDE warehouse located in Buccinasco (Milano). The delivery times are indicative, unless agreed differently. Possible delays cannot justify the cancellation or claim for damages of the order. SLIDE provides the packaging according to the rules of use. The packages will be prepared at the discretion of SLIDE. Goods travel at customer's own risk.

RETENTION OF PROPERTY

The products remain SLIDE property until final payment.

The goods sold through an extended payment are released under the condition with property reserve until full settlement.

WARRANTY

SLIDE products are guaranteed against all manufacturing faults, granted that the items are appropriately used, for twenty-four (24) months from the date of purchase upon presentation of the invoice. LEDs are guaranteed for twelve (12) months from the date of purchase upon presentation of the invoice. Warranty doesn't include parts that are subject to wear and tear due to usage, batteries when provided, wiring and electrical parts that do not have manufacturing faults.

SLIDE declines any liability to damages caused to things or persons by an illegitimate use of the product.

PRODUCTS SPECIFICATIONS AND MODIFICATIONS

Technical specifications, weight, size, colours and designs described in catalogues and/or brochures and/or price lists and/or technical sheets and/or samples are only indicative. SLIDE reserves the right to make changes or improvements to products that may be necessary or appropriate without prior notice.

Additionally, it can apply a price variation of Products modified, based on the new production costs that appear justified.

NON CONFORMITY OF PRODUCTS AND COMPLAINTS

The Purchaser is obliged to examine the goods received, in particular will have to check the packaging, and that there is a correspondence between the products packed and the number of articles ordered. Complaints for incomplete and incorrect deliveries, as well as goods not matching the order, must be notified directly to the courier on the document of transport. The claims made about damaged goods and packages must be presented with the transport note "signed conditionally".

The Purchaser must communicate in writing to SLIDE with any complaints for defects of external conformity of the products within 8 (eight) days from the date of receipt of goods, attaching all details of the document of transport and of the referring invoice, in addition to digital images showing the defects noticed. No claims are accepted after 8 (eight) days of receipt of goods. Claims with no declarations of proper assembly of the product will not be accepted.

Should the products present conformity defects SLIDE may choose to:

- a) exchange the non compliant products with the compliant ones, without any additional burden on the Purchaser; or
- b) send a credit note for the purchase price of the product to the Purchaser.

Returned products must, however, in any case be authorized in writing by SLIDE, unauthorized ones will be returned to the Purchaser charging the costs of transport. Any other form of warranty and/or compensation additional to the ones provided by these conditions of sale are expressly excluded and denied, to the extent permitted by law.

PERSONAL DATA TREATMENT

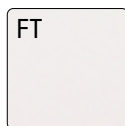

The Purchaser consents to the use of their personal data provided to SLIDE for any functional purpose of sale of the products, as well as for marketing purposes (newsletters, news and promotions) and profiling activities.

JURISDICTION AND LAW

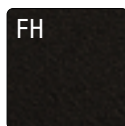

Every contract between SLIDE and the buyer is regulated by the Italian law.

For any dispute arising from or in connection with the Contract they shall have exclusive jurisdiction by the Court of Milan - Italy.
